Problem

Problem

- ♥ Users need a simple application to quickly create/organise a local community volunteering event, and be able to recruit a target number of volunteers and donations for free.
- ♥ Users need to be able to easily manage the events they have created and/or volunteered for.
- ♥ Volunteers need to be able to find a wide range of volunteering events on a single hub, where they can join easily and send donations to.

Advantages

Advantages

A single web hub where users can find a wide range of community events to volunteer for and donate to - the hub is not limited to one kind of event.

A simple to use website that makes it easy for organisers to create and manage community volunteering events for free.

Solution

Solution

- ♥ Launch an easy-to-use website where users can create their own community volunteering events and be able to recruit a target number of volunteers and gain monetary donations.
- ♥ On the site event organisers will be able to easily create, edit and delete their volunteering events.
- ♥ Site users will be able to view a wide range of volunteering events, in date order, all in one place that they can easily volunteer for and /or and send monetary donations to.
